Please also note that, although your earlier reports did not identify any forked repositories, we thought you may want to know that at least one of the repositories in your takedown notice has been forked. You can see a list of those forked repositories at:

https://github.com/StumHuang/ElectricPowerSteering_TMS570_HAITEC_LC
https://github.com/LiYuanxing/FIASA_TEST_CONFIG_CANOE
https://github.com/wuwuzhazha/EmbeddedSystem_EA3_PSA_CMP

If you wish to have any of the files in the forks disabled as well, please investigate and report them in another notice, as they may often contain different material than in the parent repository. You can find out more details about that here:

GitHub DMCA Takedown Policy - What about forks (or What's a fork?)

Lastly, it appears the following content is no longer available:
